JOHN A. MERRITT, Postmaster. MISS WILKINS REPORTED WED. Novelist Said to Be the Bride of Dr.

A dispatch to the New York World from Metuchen, N. J., says: It is believed here that Miss Mary E. Wilkins and Dr. Charles M. Freeman, a leading citizen of this town, have been married. Miss Wilkins arrived in town Tuesday evening from her home in Randolph, Mass. She was accompanied by Dr. Freeman, who had left town early in the day on a New York train. Immediately upon arriving they were driven to the home of Dr. Freeman, where Miss Wilkins has since remained.

Dr. Freeman refused to be interviewed by a reporter. He would neither affirm nor deny the fact of his marriage. Miss Wilkins has just completed her

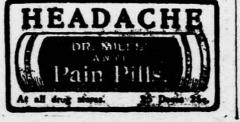

latest literary work, a portion of which appeared in May "Harper's." It is said she had promised Dr. Freeman their marriage should take place upon the complecently acquired a handsome residence known as Rose Hill, in the heart of the town, and it has been thoroughly renovated and refurnished, preparatory to occupation by him and his bride.

PURPOSES OF AMERICANS.

Letter From an Attache of the Philippine Commission Describing Conditions in the Islands.

The following personal letter from an attache of the Philippine commission has been received by a government official in Washington: "The entire commission has recently

nade trips to four of the northern and one of the eastern provinces of this Island of Luzon, and has established therein provincial civil governments. The trips have been most interesting, and in many respects, surprising. Nowhere have we received anything but the most enthusiastic welcome, and nowhere have we seen anything but the evidences of the most complete tranquillity and order. Some of the receptions accorded us, principally that in the province of Bataan, showed the greatest regard for the purposes which took the thankfulness that the American people and government were giving evidences of carrying out their promises to the natives. The greeting the commission received at Balanga in the above named province was really a splendid demonstration, which it would take too much space to describe here, but which will be treasured in memory' vaults for many a day. The harbor was covered with native canoes and craft of every description, literally smothered in American colors; the ride of the commis sion and party from the harbor to the capital of the province was like a triumphal procession; the American flag floated from every house and window, and there were hundreds of school children each carrying small American flags, and singing the 'Red, White and Blue' and the 'Star Spangled Banner' along the route.

In Memory of Washington. "On the eve of Washington's birthday the federal party of Manila gave a banquet to the general officers in this city and the commission, at which about 150 covers were laid. It was one of the finest banquets in every detail that I have ever attended, and I was really surprised to see so many intelligent Filipinos gathered together in one place. Speeches were made by General MacArthur, Judge Taft, Atington's birthday on the Luneta, and I do not believe there was a place in the United States where a more enthusiastic or more largely attended celebration occurred. The American flag was everywhere, and the speeches made by the Filipinos were loyal,

patriotic and sincere. The Insurrection Over.

"We who witness such scenes as the two have referred to and who, traveling through the interior, meet the people face to face, and talk to them heart to heart cannot understand how it is possible for the press of the United States and some misguided legislators under the dome on

Capitol Hill to talk such honsense as they do.
"As the commission started several months ago, the insurrection in these islands is over. Roving bands of marauders may from itme to time commit depredations; but the great bulk of the people are tired of war and are joining with the Americans in the efforts to bring about peace and the organization of civil government under the sovereignty of the United States There are today in the federal party nearly of the men who were members of the Malolos congress, and thousands of others all of whom are standing together upon a platform the first plank of which

recognition of American sovereignty in this archipelago.

Respect for Judge Taft. "The commission, I believe, can lay the flattering unction to its soul that this result is entirely due to its labors here. Judge Taft is loved by these people. Even those who are somewhat intransigent respect and admire him, and were the Filipinos today to enjoy the right of franchise I have not the slightest doubt that he would be elected to the highest executive position. It ought to be recalled that the tremendously enthusiastic meeting of the Filipinos on the Luneta on February 22 was the first time in the history of these islands that they were ever allowed to meet in such large numbers and express their opinions upon any subject, and that this meeting took place within 200 feet of the field stained with the blood of countless martyrs and whereon Rizal breathed his last sigh and gave up his life for his people.

"In the town of Bulacan, former capital of the province of the same name, the assembled representatives of the various pueblos in the province manifested a desire to change the capital, and for the first time in their history they voted by ballot, choosing by a majority vote the ex-revolu-tionary capital at Malolos, instead of the time-honored Bulacan. A Spanish newspaits trip referred to this act, and stated that it was one of the details which showed to the Filipinos the sincerity of purpose of the American people; that there was no other nation on the face of the earth that would have thought for a moment of per-mitting a vote to be taken which might result in the naming of the ex-revolutionary capital as the provincial seat of a new provincial government."

CHARLES FOSTER A BANKRUPT. Files Voluntary Petition. A special dispatch to the Philadelphia

Press from Toledo, Ohio, last night says: Charles Poster, ex-representative, exgovernor of Ohlo, who was Secretary of the United States Treasury during President Harrison's term, filed a petition in voluntary bankruptcy in the United States district court here this afternoon. Mr. Foster has absolutely no assets, and the schedule of debts follows: Secured claims, \$236,574.20; unsecured claims, \$197,451.58; notes and bills which

claims, \$107,451.58; notes and bills which ought to be paid by other parties thereto, \$142,608.42; accommodation paper, \$170,-374.14; grand total, \$747,008.34.

This bankruptcy petition is the largest that has yet been filed in the local office of the federal court. It covers eighty-six pages, the entire liabilities being itemize to the cent. The petitioner represents that he owes debts which he is unable to pay in full; that he is willing to surrender all his property for the benefit of his creditors, except such as is exempt by law, and desires to obtain the benefit of the act of Congress relating to bankruptcy.

These Howards, to speak of no others, have made the name synonymous with humane, honora-ble, high-minded conduct. Those who bear the name of Howard as graduates of this university have, it seems to me, a peculiar honor and a peculiar obligation. The thought of inhumanity to any sentient creature should be abhorrent to every Howard graduate. Cruelty in any form, under any circumstances, to man, or beast, or bird, ought to rouse a Howard graduate to a fighting zeal. The amelioration of suffering should be a pleasure as well as a duty. You men and women who are to minister to the suffering and the needy as your life work should be especially tender and sympathetic and kind-hearted, because you are patietic and kind-nearted, because you are all Howards by adoption. Dishonor, not technical and special, but broad and general, you should avoid as disease of the deadliest kind, if you are to be true Howards. MR. H. B. F. MACFARLAND'S ADDRESS CHANGE FROM SEMI-ANNUAL PLAN

List of Officers and Committees | Heavy Rush of Business Expected Latter Part of Month.

DR. REYBURN PRESIDES REGARDING DELINQUENCIES

Property owners of the District of Columbia who have called at the District . building since the 1st instant for the purpose of paying their taxes for the year ending June 30 have found a new system in operation in the office of the collector of taxes. The new system of receiving moneys and giving receipted bills has been adopted by the District Commissioners after the plan of that employed in the office of the treasurer and city tax collector of Providence, R. I., and was determined upon after a special committee appointed by the Commissioners had visited several of the larger cities of the east to examine into the various bookkeeping arrangements in vogue, in order to bring about an improvement in the policy heretofore followed in the District. When this committee had reported in favor of the adoption of the Providence system a committee went to that city and personally studied the arrangements. Under the di-rection of the Commissioners Mr. Davis installed the system here, and it is now being

tried for the first time.

A thorough test has not yet been given the system, and Mr. Davis is withholding his opinion in regard to it until the heavy rush of taxpaying which will come the latter part of the month has been encountered. So far the system has been found to be quite satisfactory, it is stated, al-though there are some small details yet peculiarities connected with taxpaying in the District of Columbia not generally en-countered in other cities, and it is more than likely that to overcome these difficulties some change in any system employed in other cities would be necessary

The Providence Plan.

Under the Providence plan, which is now being employed, every tax bill due the District is made out in the office of the District assessor in advance of the time when taxes become due and payable. This was the case this year, and for some weeks prior to May I the force of clerks under Assessor Darnellie was busily employed on the work. The bills thus made out were carefully indexed and placed in compartments in a large flat case and transferred to the office of the collector of taxes.

to meet conditions prevailing here.

Heretofore it has been the custom of taxpayers to stop at the assessor's office and call for their bill, which would then be made out. They could thus examine the bill at leisure, either paying it at once Those in dentistry were Oliver Howard at the collector's office or walting a few days as the case might be. Under the present system taxpayers go immediately to the office of the collector and ask at either of two windows for their bills. The clerks proceed to the case where all the bills are on file and there search out the one requested. This bill is not given out until paid. Two cashiers are in adjoining compartments to receive money for

the bills taken from the file cases.

The system has worked very satisfactor rily except, it is stated, in cases where the bill is made out for two pieces of property, for instance, when the taxpayer desires to pay on but one parcel. It is often the case that a recent sale of property requires a split bill. In such instances of course, the taxpayer in line must stand aside and the matter be again taken up bills in advance of paving them are also where slips termed memorandum bills are given upon application. At present, the property owners being accustomed to hav-

ing their bills several days ahead for examination, there is a large demand for memorandum bills and the assessor's force is busily employed. Four clerks from the assessor's office have been transferred temporarily to the office of the collector of taxes to help in the operation of the new scheme, bringing twelve, minus one assigned to duty as seond cashier. Collector Davis asked for a second cashier from the last Congress. The but it was dropped out in conference. So

system. Mr. Davis assigned a clerk to act and cashier, personally assuming responsibility. The true test of the new system will come during the last ten days of the present month, when the heaviest bills are expected to be paid and the greatest amount linguent after June 1, and the District authorities have so advertised. One payment is now being made to cover the taxes of

the year. For a number of years past the District taxes have been paid in semi-annual installments.

BY WRIT OF HABEAS CORPUS. Alleging Innocence, Charles Monroe

Seeks to Regain His Liberty. A petition for writ of habeas corpus was filed today by Attorney A. S. Colyar in behalf of L. Monroe claims that he is illegally and unlawfully restrained of his liberty by the superintendent of police. He was arrested, he explains, the 7th instant, and denied the right to see or secure counsel, and, without warrant or any other legal process, was sent to the fourth precinct police station and is now detained there, not knowing with what he is formally charged. He is held, he maintains, in violation of

all law.

Monroe adds that he has been informed that he is suspected of the crime of rob-bery or housebreaking, but no formal charge has been made against him, or any warrant served on him charging crime. In concluding his petition Monroe declares that he is not guilty of any offense against this or any other jurisdiction. Major Sylvester, superintendent of police,

received a dispatch this afternoon from A. Johnson, warden of Sing Sing prison, in reply to a query, which creates a doubt as to whether the detectives were correct in saying that Charles Rohan and Lewis Mor-timer Monroe, the petitioner for writ of habeas corpus, are one and the same per-son. Warden Johnson states that "Charles Rohan, alias Mills, etc., sentenced Decem-ber 29, 1891, in New York, to serve three years and eight months for burglary, was then aged twenty-eight; that he had two scars from burns on the left side of the neck, and that half of the index finger of his left hand was off."
